Bank of the Commons

Freedom Coop

Telephony service project

The main part of roadmap is very simple:

- Any member can have a SIP number(for VoIP communications) for free.
- Anyone can have a geographic telephone number(ex. +34XXXXXX) for a very small cost.
- All the technology uses FLOSS, using the Asterisk* blueblox managing system.
- Entrance portal will be available at admin.sip.freedomcoop.eu to manage the bluebox.
- Users can use *CSipSimple* app in their smartphones to make phonecalls to other SIP numbers or geographical numbers.

Useful notes:

- Service is provided by Capa8 cooperative in Catalonia.
- 300 eur was paid for installation with a 70eur/month being paid monthly, so it's urgent to find a responsible manager.

We have all the tech ready, we dont need a developer just a manager that wants to learn about VoIP.

Contributors should be active members of FairCoop, and their work hours would be retributed by the OpenCoopWork platform.

If you want to help, say Hi! at the [Freedom Coop telegram group](#).

CommonRoutes

A cooperative transport system. See possible routes here: <https://board.net/p/FCCE.transport>

Stargate

It is an online faircoin payment gateway. It facilitates access to fair merchants who don't use faircoin yet, and acts as a proxy between the capitalist and fair economies, by allowing users to make all their payments in FAIR.

Stargate is a project of Freedom Coop, and a part of the Faircoop ecosystem. It is a non-violent disobedience project which operates under the Integral Revolution principles: <http://fair.coop/principles/>. The current members are individuals and Athens LN. It is meant to be a

small coop of less than 30 people.

With Stargate you won't need to use dirty money ever again!

Info

Email: stargate@riseup.net

Website: PENDING

OCP: stargate

UseFaircoin: stargate

Political goals

- Increase awareness about faircoin
- Allow acces to products from fair merchants who don't accept faircoin yet
- Obtain euro liquidity
- Financial surplus for the movement

Procedure

1. Buyer fills payment and shipping details on our site
2. We check the seller in our database (or add it), confirm the order and send the final price in FAIR to buyer
3. When we receive the faircoin, we order the product (we need to have reserves in the card)
4. We exchange to euro and top up the card when it's convenient

Finances

Income

Wallet: <https://wallet.bankofthecommons.coop/> Main address:
fVZoFndL2GK2pDnQUrciHerzjP5zwY4Evk

We try to keep as much in FAIR as we can.

Expenses

Initial expenses: F100 + €210

Monthly costs: 1.2 €/card

Shipping and import fees: 0-24% + 9-... €

Profit Distribution

1/3 for Stargate, 1/3 for the workers, 1/3 for the movement (investment/donation to a project in accordance with Stargate's values)
