

Global Projects

Bank of the Commons

Freedom Coop

CommonRoutes

A cooperative transport system. See possible routes here: <https://board.net/p/FCCE.transport>

FairCoop School

In the ecosystem, we produce valuable and innovative knowledge so the aim of FairCoop School is to collect, process and distribute all these information in a blended (online and presencial) learning system.

Projects Ideas

Here is a list of projects which are still under development and didn't reach an initial launching phase, yet:

- **FairBnB**: an alternative renting platform (platform cooperative) to Airbnb with the aim of keeping and redistribute the generated profits inside the local area where the rents are happening. FairCoop is a potential partner amongst others to help to develop the platform by providing a variety of different resources. FairCoin could be a the potential currency used on FairBnB
