## Agenda

### Fair Ecosystem Gathering

#### May 26 - June 12 @Décentrale

From May 26rd to June 12th we'll gather on Mont-Soleil, Switzerland to work on building tools for the emerging fair ecosystem. During these days we aim to reset base around a collective development roadmap for the next 2-3 years. Your presence is important, as we will agree on a common path, where possible, so when we are back home, we continue working on the same synergetic line, making progress more efficient for everyone.

### Gilets Jaunes

#### Sunday, May 26, 15h @EspaceNoir

Vernissage of the exhibition "Art interactive et ludique". Screening of the "J'veux du Soleil" documentary film about the Gilets Jaunes movement. Round table discussion about the Gilets Jaunes.

### Planning Hackathon

#### Monday, May 27, 10h @Décentrale

Detailed scheduling of activities during the Hackathon, based on presence of different participants.

---

## Self-Empowered Culture Radio

**Monday, May 27, 17h @Décentrale**

Workshop on how to participate in the programming and produce live or recorded sessions for the radio. We'll also discuss what it would take to make the next step and offer additionally a full time video stream.

---

## Building Fair Circular Economy

**Tuesday, May 28, 10h-19h @Décentrale**

How do we best extend and curate the web of trust that is the market participants of the fair economy. What are preconditions to be considered "fair", which are the merchants that we know to be fair accordingly and which economic links can we manifest between them.

---

## Glocal Governance Model

**Wednesday, May 29, 10h-19h @Décentrale**

In this workshop we will be looking of ways to apply glocal governance models to the needs and circumstances of the FairCoop community. FairCoop's focus isn't governance but the development of a global grassroots fair economy. As it aims to achieve its goal, it however needs to build the corresponding governance structures. We want to see how the models we develop can help in this context and how this practical example can help develop our models.

---

## FairCoin and Fairo ecosystem

**Thursday, May 30, 10h-19h @Décentrale**

We aim to review the concept of exchange rates between the "Fairo" purchasing power peg, FairCoin and other currencies. The Fairo is intended to be a reference point for purchasing power value in the emerging fair economy. We are defining an ecosystem of consensus based exchange rates in a web-of-trust, creating dynamics for a Nash Equilibrium for a cooperative, fair economy. We'll discuss and further develop the proposal of using this reference point and aim to agree on a first consensus rate.

---

## FairHackathon

**May 31 - June 9 @Décentrale**

During the FairHackathon of May 31st to June 9th we focus on the broadening our collective

understanding of the key technologies in our software stack and hack together on improvements and developing our skills peer to peer. We'll share knowledge about how to build and enhance existing fair economy software and how to develop applications around them with the available libraries and APIs.

**Tuesday, June 4, 10h @Décentrale**

**Wednesday, June 5, 10h @Décentrale**

**Thursday, June 6, 10h @Décentrale**

**Friday, June 7, 10h @Décentrale**

**Saturday, June 8, 10h @Décentrale**

**Sunday, June 9, 10h @Décentrale**

---

## **Duniter currency concept**

**Wednesday, June 5, 10h @Décentrale**

Workshop and video conference on theoretical aspects of the currency, which includes the concepts of a universal dividend and web of trust.

---

## **Duniter protocol**

**Wednesday, June 5, 17h30 @Décentrale**

Workshop and video conference on understanding the Duniter protocol.

---

## **Money game**

We'll be experimenting with four different economic systems as part of this game.

**Thursday, June 6, 9h @ Décentrale**

---

## Holochain

Holochain folks will be present to discuss and provide workshops on the Holochain, Ceptre and Meta-Currency topics.

**Thursday, June 6, 17h30 @EspaceNoir**

[Programme](#)

---

**Monday, June 10, 10h-19h @Décentrale**

## Building Fair Circular Economy

**Tuesday, June 11, 10h-19h @Décentrale**

How do we best extend and curate the web of trust that is the market participants of the fair economy. What are preconditions to be considered “fair”, which are the merchants that we know to be fair accordingly and which economic links can we manifest between them.

## Glocal Governance Model

**Wednesday, June 12, 10h-19h @Décentrale**

In this workshop we will be looking of ways to apply glocal governance models to the needs and circumstances of the FairCoop community. FairCoop's focus isn't governance but the development of a global grassroots fair economy. As it aims to achieve its goal, it however needs to build the corresponding governance structures. We want to see how the models we develop can help in this context and how this practical example can help develop our models.

## FairCoin and Fairo ecosystem

**Wednesday, June 12, 19h30 @EspaceNoir**

We aim to review the concept of exchange rates between the “Fairo” purchasing power peg, FairCoin and other currencies. The Fairo is intended to be a reference point for purchasing power value in the emerging fair economy. We are defining an ecosystem of consensus based exchange rates in a web-of-trust, creating dynamics for a Nash Equilibrium for a cooperative, fair economy. We'll discuss and further develop the proposal of using this reference point and aim to agree on a first consensus rate.

## Extinction Rebellion

**Thursday, June 13, 10h-19h @Décentrale**

Conference and round table discussion about Extinction Rebellion, the global movement for civil disobedience to fight the destruction of the biodiversity through unhindered climate warming, which was started in October 2018 in the UK.

## Confederation Without Borders

**Thursday, June 13, 20h00 @EspaceNoir**

Assembling the basic building blocks of for a federated bottom up governance around a basic set of principles that constitute not just a manifesto, but a constitution.

## Ecologie sociale & municipalisme libertaire

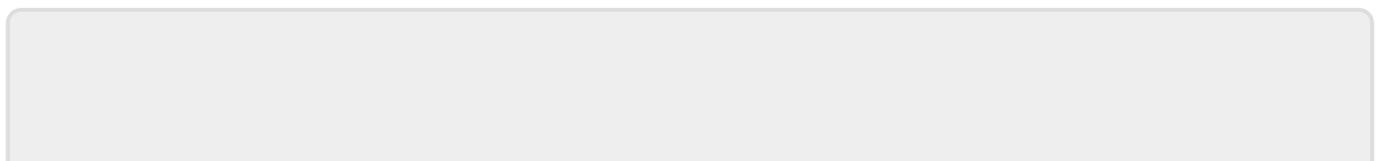

**Friday, June 13**

Qui est Murray Bookchin ? Qu'est ce que l'écologie sociale ? Et le municipalisme libertaire ? Comment peut-on le penser et l'expérimenter au 21ème siècle, en Suisse comme ailleurs ? Avec Vincent Gerber.

## Women's strike

**, June 14, 17h30 @Décentrale**

We'll all be on strike.
