

## Where does the money go when I buy at getFairCoin?

getFairCoin is one place to exchange FairCoins directly from FairCoop. The Euros received are used to exchange back FairCoin to Euro to merchants, if they can't buy e.g. raw materials with FairCoin. We keep buying FairCoin from the markets to be able to supply the demand and to stabilize the market prize from below. Alternatively, you can buy FairCoin at a local node.
